PT Informatika Media Pratama

Apr 2025 – Aug 2025
Jakarta, Indonesia

Software Engineering Intern

- Developed Cariproject.com with key features including Google authentication, chat, application and project verification, Midtrans payment gateway, admin dashboard for profits, user monitoring, and user project home page.
- Adding features, making changes according to user requests, and fixing bugs on Web Sikap kementerian Agama in accordance with code quality using SonarQube.

Syaamil Group

Jan 2024 – Feb 2024
Bandung, Indonesia

IT Support

- Indexing 600 page of Quran using Web Base for Qursa Application

Projects

CariProject | Freelancer Website | Django, Postgre, Google Auth, Docker,

- Developed and designed a full-stack marketplace using Django, PostgreSQL, and Docker.
- Implemented Google OAuth 2.0, chat, and role-based application & project verification/approval workflows.
- Integrated Midtrans payment gateway and built an admin analytics dashboard for revenue tracking, user activity monitoring, and project management.

SIKAP (Kementerian Agama) | Laravel, Mysql, J Query

- Delivered feature enhancements and stakeholder change requests, improving usability and reliability.
- Diagnosed and resolved defects, refactored modules, and enforced code-quality standards with SonarQube and CI checks.

Hawa | Vite React, Tailwind, FastAPI, PostgreSQL, Groq, OpenMeteo

- Building a multilingual (ID/EN/Sunda) real-time weather dashboard with hourly/daily forecasts, location maps, and detailed weather metric cards.
- Designing a JWT-authenticated FastAPI backend with rate limiting, automated notification scheduling, and WhatsApp integration for early warnings and weather risk summaries.
- Adding compliance & feedback modules for industry (admin & user portal), including user management, compliance tracking, and response analytics

Prenava | Laravel, MySQL, Docker, React, Flutter

- Auth JWT: register/login/refresh/logout, change password, protected routes.
- User & admin: CRUD profile, icon, reset password, activate/deactivate midwife/health office user accounts.
- Banner & home: create/update/delete banner, home feed.

- Community & threads: post, details, reply, like, view cache, bookmark, delete comments/likes for communities.
- Shop & products: CRUD shop, shop log, CRUD products.
- Health/mom-care APIs: pregnancy calculator (manual/auto), kick counter, water intake, delivery prediction, depression prediction, EPDS, postpartum tracker, food/exercise recommendations, disease detection, visit records, air quality.
- Observability & ops: Redis debug endpoint, seeder+migration via Docker, welcome/health check root endpoint.

IT Governance | COBIT 2019 — PT Pegadaian Bandung

- COBIT Design (DF1–DF10): Prioritized governance objectives to enterprise drivers; top focus: APO05, BAI01, APO02, BAI05, BAI11.
- Capability & Gap Actions: Baseline BAI02=CL2, BAI07=CL2, DSS03=CL2 (target CL3), BAI03=CL3.
- Fixes: standardize requirements via reporting/escalation tooling tighten change acceptance (criteria, approvals, post implementation verification).
- Deliverables: Audit-ready Scoring, Gap Analysis, Potential Improvement, and DF1–DF10 design canvases mapped to policies, controls, and tooling.

Work produced as part of an academic course assignment for PT Pegadaian (Bandung).

Service Catalog | Puti

- Delivered feature enhancements and stakeholder change requests, improving usability and reliability.
- Diagnosed and resolved defects, refactored modules, and enforced code-quality standards with SonarQube and CI checks.

Work produced as part of an academic course assignment for Puti (Bandung).

Education

Telkom University

2022-2026

Information Systems, Undergraduate (8th Semester) | 3.72/4.00

Bandung , Indonesia

Awards and Activities

Awards: Best Teams on CCI HACKS 2024, Top 19 with the idea of “Chillot” an AIoT to monitor and optimizing chili growth on ARKAVIDIA HACKVIDIA 2025, Top 30 Amarta x GDG Jakarta Hackathon 2025, Top 9 Youth Development for climate tech 2026

Activity: Coordinator Division Competition and Study Group Member in EISD Laboratory, Member of Google Developer Student, Member of Central Computer Improvement
